

Dear Reader,
we want to invite you to something maybe new to you. If you continue reading, it might be the right thing for you right now as you seek answers to your questions about success with your business.

Leading and Acting from a New Level of Consciousness...
...from 28th June - 4th July 2010 at the Herzberg (CH) -
www.summeracademy2010.com

We believe that we cannot solve our organizational challenges at the same level of thinking that we were in when we got into them, just as we were cautioned by Einstein. Our assumption is that leading from a new level of consciousness will result in organizations full of life energy and power and creating a competitive advantage in the future. Genuine Contact™ is a holistic approach that brings Spirit and energy back into organisations and thus fosters organizational success. It builds on a holistic paradigm and world view. Simple and versatile tools assist in facilitating development for individuals and organizations. It takes a holistic consciousness in order to apply them effectively.

On the initiative of Genuine Contact professionals the Summer Academy is taking place in Europe featuring **Birgitt Williams and Ward Williams**. The international successful consultants and creators of the Genuine Contact™ Programm will lead through two exceptional workshops held for the first time ever at the Summer Academy! These workshops are not for those who are seeking only tools. These workshops are designed for those seeking a deep understanding of the consciousness technology to achieve a shift in consciousness for organizations. **2 Modules** and an **International Mentoring Circle** will provide an opportunity for deep learning on a personal and professional level. One of the rare occasions to experience Birgitt and Ward in Europe!

The story of this years summer academy...

On the 28th of June 2009 the Genuine Contact Mentoring Circle in Berlin was about to finish. Somewhere near the closing circle the question arose: will there be another Summer Academy next year? There was a little pause, glances were exchanged and suddenly two men and two women stood up and declared that they would be the next years Summer Academy organizing team. They were acknowledged with a big applause - the first time the event would take place in Switzerland. With no theme and not date yet but the intention that had been set by four people.

As change is constant - one person left the team, two others stepped in and now it is a team consisting of 5 professional consultants / leaders from the three german speaking countries Switzerland, Austria and Germany that is organizing this very special event. Together with Birgitt Williams and Ward Williams the programm of the Summer Academy was developed and is now something unique to be offered by Birgitt and Ward at this time!

...what inspired the organizers to be part of this years Summer Academy

Maya Burkhard: "...that the Summer Academy 2010 is a substantial contribution towards the inspiring idea that business is one of the most wide-spread stages for us human beings to express Spirit. The Genuine Contact way shows us a realistic way of how to develop our own level of consciousness, our holistic leadership style that integrates our experience and passion to create conscious business and thus support human development."

Monika Himpelmann: "...that our theme of shifting consciousness seems to be the solution for what I experience with people and organizations in the last years. The state of our consciousness is surely the basis of aligned believes, thoughts, speech and action. I feel that we will discover new ways of perception, new sources of attention and information and therefore new ways of acting. Also a new quality of relationships and this will bring us forward a huge step. I am very happy that this will take place in a circle of people with the same intention."

Ralf Dümpelmann: "...working in a very hectic business life in a multi-national company the Summer Academy 2009 was like an inspiring time-out for me. Taking down the speed and creating openness for questions usually not perceived, e.g. the purpose? your own responsibility as leader and the vision? Very interesting was also the lively exchange with other participants. I greatly enjoyed it and look forward to this years event."

Sabine Schmelzer: "...I was very impressed by the Summer Academy 2009: Connecting with others, intensive dialogues, concerted creation and development of new approaches to leadership in a huge, homogeneous group. This motivated me to organize the Summer Academy in Switzerland in order to allow this approach to become known here, too."

Sylvia Machler: "...when people create a concerted energy field around a topic real change can happen. I am very much looking forward to the fact that we as a consultants and leaders can contribute considerably to such a process and thus will take along valuable experiences for our work. Inspired by the experience of the last Summer Academy I can assure you that this event is a place for wonderful and authentic contacts."
